Work Experience

CareMonitor   Sydney, Australia
Member of Technical Staff   May 2020 – Mar 2025

- **Led and scaled** the UI Engineering team from **3 to 8 engineers**, facilitating training, mentorship, and strategic guidance, directly supporting the company's rapid growth from **5 to over 40 employees**.

- **Architected and delivered** multiple high-impact healthcare applications in **collaboration with NSW government** including **Telehealth, e-Prescribing, and Scheduling platforms** enabling company client growth from **500 to over 15K+ healthcare professionals,** significantly expanding user adoption and operational capacity.

- **Pioneered company-wide accessibility and UX initiatives**, established standardized documentation, developer checklists, and introduced streamlined remote processes including detailed task tracking, comprehensive release documentation, standardized pull requests to enhance product quality, efficiency, and ISO compliance.

- **Designed and implemented robust technical solutions** leveraging **Angular, RxJS, GraphQL, REST APIs, CI/CD pipelines, and state management** to deliver seamless user experiences, data consistency, and scalable performance.

Salestrendz   Pune, India
UI Developer   Mar 2019 – Jan 2020

- **Gained hands-on expertise** in building scalable web applications using **Angular**, mastering key concepts like components, services, and the MVC architecture to deliver maintainable, high-quality code.

- **Developed strong collaboration skills** by actively participating in cross-functional teams, utilizing **Git** for effective version control, pull request management, and peer code reviews.

- **Expanded technical knowledge and versatility** at a fast-paced product-based startup, integrating third-party APIs and tools such as **Sentry** and **Google Maps**, enhancing product functionality.

- **Delivered key UI features and performance optimizations**, directly contributing to a **30% improvement in load times**.

Skills

Programming Languages
JavaScript, TypeScript, HTML, CSS, Sass, GraphQL, JSON, YAML.

Libraries & Frameworks
Angular, Tailwind, RxJS, Nx, Node.js.

Tools & Platforms
Git, GitHub, Netlify, Figma, Clickup, AWS.

Side Projects

Portfolio
Developed a responsive Angular-based personal website showcasing professional projects and accomplishments.

Jain Tour And Travels
Engineered a dynamic, responsive PHP website featuring integrated Google Maps and CDN-optimized images, hosted on Hostinger with sub-1-second load times.

Technocon Lakshya
Developed 'Technocon Lakshya,' a registration platform for MIT Pune events, integrated with Townscript and hosted on AWS, achieving 100% digital registration.

Cryptocost
Built a responsive web application integrated with APIs to display real-time cryptocurrency prices in INR, improving user accessibility and engagement.

Education

MIT WPU, Pune
Master of Computer Applications.

AITR, Indore
Bachelor of Computer Applications.
